

GABRIELLE MAXEY

OPERATIONS ENGINEER

WORK EXPERIENCE

Operations Engineer I

CenturyLink (2020-Present)

- I develop automation for issues on our national communications network. It involves analyzing and developing a complete "no touch" automated solution from end to end for hardware failures that arise on the network.

Network Operations Technician III

CenturyLink (20018-2020)

- Lead technician in a Network Operations Center troubleshooting and assisting peers and field technicians resolve issues. Worked extensively with Tier III Engineers, peer groups, to resolve more difficult issues.

Network Operations Technician II

CenturyLink (20013-2018)

- Network Operations Center monitoring and troubleshooting large TDM, CDM, SS7, and IP networks. Working in coordination with various internal teams including walking field technicians through hardware repair as well as outside LECs.

PROFILE SUMMARY

I've worked in the Telecommunications field for several years and have extensive background working with technical documents, field operations, and end users. As an Operations Engineer I work within a team creating technical automations using various coding languages.

PROFESSIONAL SKILLS

- Strong analytical, and problem solving ability
- Extensive Knowledge of TDM and CDM
- Web Content Development
- Knowledgeable of Ansible, JavaScript, Python
